FORESTLINE

■ Greentec 962 TRACK

- A very compact model in its class yet designed for the toughest jobs
- Max chipping capacity 25.5inch (75cm)
- The drum has a 40mm solid outside wall, and a 125mm center shaft
- 6 knives spread over the drum results in even loading and a smooth transition of the material
- The solid blades are adjustable to 34mm (quick change blades max. 30 mm) outside the drum, making the machine well suited to producing large wood chips with minimum dust

Knives easy accessible when the infeed rollers are hydraulically positioned above the machine

Steel track or rubber on steel

Continuous infeed chain to below the top roller(s) optionally

Radio remote control, 2-inch colour display with optional foot control

Greentec 962 TRACK
